

EQUINOX COVERS

The Equinox Louvered Roof system embodies smart design that elegantly increases outdoor space. Elevate environments with on-demand sunlight, shade or rain protection.

- **Increase dining options and capacity at a lower cost than renovations**
- **Versatile – complements brick, stucco, fiberglass and others**
- **Customizable – integrates with existing architecture**
- **Motorized for easy operation**
- **160o range of motion on demand**
- **Louver control of independent seating areas**
- **Full gutter system for dripless rainwater management**
- **All metal materials that perform well in all environments**
